40 Foot Bunk House coaches attract families

The Breed of Diesel Pusher Owner

From August 13th through the 22nd, I had the pleasure of joining about 80 salespeople at the Rose Bowl in Pasadena and participate in a fairly good size RV show put on by McMahons RV. I have had my favorites over the past several years which have been made up of motorhomes that cost over \$400,000.

Well, I cannot believe what a family can get for under \$200,000 MSRP. The most popular motorhomes at the show seemed to be the 36-40ft bunkhouses including the Sports coach from Coachmen and The Berkshire by Forest River.

Other manufacturers make a Bunkhouse diesel pusher including Monaco RV Cayman PBT, Newmar Ventana 3943, Tiffin Allegro RED 38QBA, Fleetwood Bounder and Discovery, Just a few years ago, the only bunks on the road were in a prevost conversion.
